

## Module 3 Cyclists

Riding bicycles in our parks and natural settings is an enjoyable activity and a great way to stay healthy and active. Imagine you are the organiser of a new cycling committee. Your first role is to create a website entry or newsletter for your organisation. In a recent meeting, your committee voted on including the following topics in your first post:

- A welcome message
- Tips to stay safe when cycling
- A list or quiz for checking your bike is roadworthy
- Cycling regulations that apply to you
- Great parks for bikes

Use the space below to start planning your entry:
